

# A true “low maintenance” relationship

Ten seconds of investment, decades of manicure tool devotion

---

## Lubri-pen

**STERILIZABLE:** Oil is designed to be vapor-permeable in autoclaves (134°C/273°F) and high heat sterilizers of over 180°C (356°F). Most medical/surgical grade instrument oils on the market degrade significantly or are completely removed under such conditions. Not ours!

**FOOD GRADE** - Our paraffinic polymer oil will naturally biodegrade and requires no special handling. It will not even harm if ingested!

**HONING OIL** – Our lubrication oil also works well as a honing oil. Pair it with our sharpening stone and impress your clientele by sharpening your own cuticle nippers on-site, right in front of their eyes.

**MULTIPURPOSE** – Lubricate any moving joints from nail nippers, scissors, or cuticle nippers to electric nail drills and hair clippers. It can even be used as a cuticle oil in a pinch.

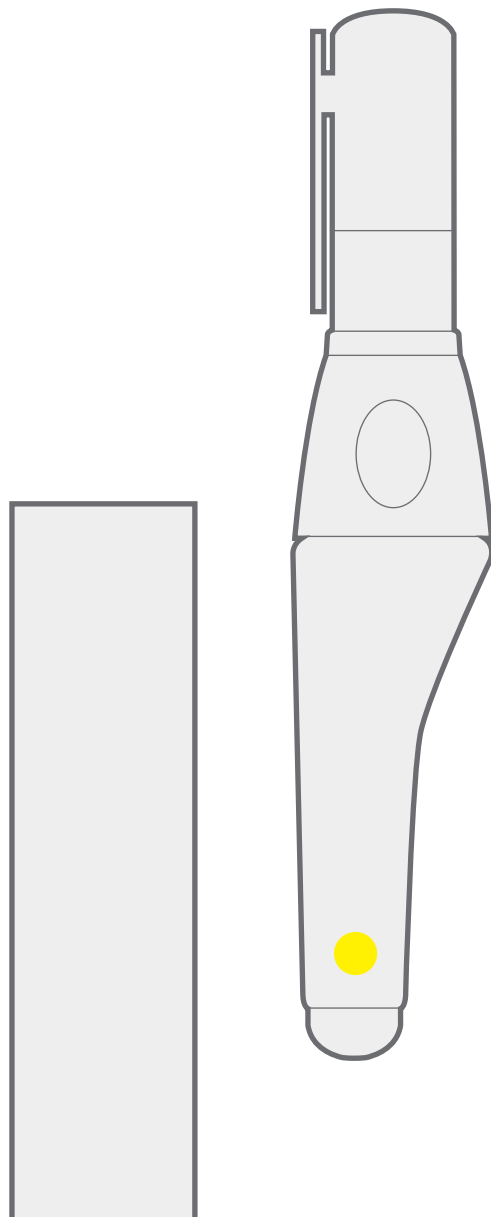

## Arkansas stone

**GENUINE HARD** – Do not believe the myth that genuine hard Arkansas sharpening stones are no longer available. This stone is world-renowned for its outstanding sharpening ability.

**THE GLIDE** – Simply glide your instrument's blades over the stone once or twice to keep them razor sharp.

**MADE IN USA** – Then, imported to Solingen Germany for use by our artisans to hand-sharpen our tools.

**NATURAL MATERIAL** – Unaltered and uncoated, this is pure raw stone with natural color variances. It is the perfect hardness and density for sharpening and honing hard steel.

# Why?

Ethical, sustainable, ecological, innovative,  
inspirational, efficient, transparent

No phony smiles here. We value ethical practices and an ecologically sustainable future for our children far more than profit. We believe practices contrary to these ideals are repulsive and we utilize no child labor, no planned obsolescence, no factories that have reprehensible waste and which have no environmental conscience; NO. The highest quality, longevous products can be affordable to regular people...in fact, anything less is unaffordable.

With these tenants as the core of our business practice, we have created the finest precision made manicure products in Solingen, Germany..."the city of blades" - world renowned for its impeccable steel manufacturing. Meticulously engineered with pride, care and attention to detail by adult artisans, our unique designs prevent wear, so the same product can last your family for generations. Specifically designed to provide smooth cutting instead of crushing, trimming instead of ripping, and finite shaping instead of micro-tearing, our products provide you with the healthiest treatment for your nails.

Loving yourself is the first step to loving others. We are Germaniküre. Welcome to our family
